

A NEW CATEGORY OF REL

Planar Subwoofers

Planar redefines how bass lives within a room, combining thin architectural form, versatility, and the scale, energy, and emotional connection expected from REL.

Form

Thin, architectural, and designed for modern spaces. Whether wall-mounted or positioned on its custom cart, Planar integrates naturally into the room around it.

Freedom

Designed for versatility across modern living spaces. Wall-mounted or positioned on its custom cart, Planar adapts effortlessly to the room around it.

Function

By using the wall as part of the acoustic system, Planar delivers greater scale, projection, and room-filling bass with remarkable control and authority. You don't just hear it. You feel the room respond.

Wireless by Design

Planar is the first REL subwoofer line with built-in wireless capability using integrated Airship technology for simplified setup and flexible placement.

The REL Difference

- Musicality first
- Seamless integration
- Designed to reveal emotion, not overpower it
- Precision and control with effortless scale

Art of Bass
Without Boundaries
