

HT/1003

For when there is simply neither the space nor the need for all the output of a larger HT model. HT/1003 applies the same approach as its impressive stable mate but scales the power down by just a little. 10" high-powered, long throw driver and 300W means it has plenty of power on demand. This unit is intended primarily for high powered home theater applications, immersive gaming set-ups, and pairs nicely with active powered loudspeakers. Scaled down design, up-sized performance.

For REL owners already enjoying our Reference, Serie S and T/i subwoofers designed for both 2-channel and theater use, the HT/1003 is designed to supplement their system's .1/LFE output to produce extremely high output for chest rumbling home theater special effects.

SPECIFICATIONS

TYPE	Closed box, front-firing driver
ACTIVE DRIVER SIZE & MATERIAL	10 in., 250mm long-throw, CarbonGlas™ cone structure, inverted carbon fibre dust cap, steel chassis
PASSIVE RADIATOR SIZE & MATERIAL	N/A
LOW FREQUENCY EXTENSION	-6dB at 24 Hz
INPUT CONNECTORS	Dual purpose Low Level stereo RCA or LFE RCA
OUTPUT CONNECTORS	Daisy Chain Low Level stereo RCA or LFE RCA
POWER OUTPUT	300 watts (RMS)
AMPLIFIER TYPE	Class D
WIRELESS CAPABILITY	HT Air Wireless (Optional)
W x H x D, INCLUDING FEET & REAR PANEL CONTROLS	12.5 x 13.7 x 13.8 in. (318 x 347 x 351 mm)
NET WEIGHT	28 lbs. (12.7 kg)
FINISH	Line Grained Black Composite

All RELs - Fully Electronic SET-SAFE, output short, DC Fault

Insane Performance at its Size and Price

HT/1003 MKII

a.k.a. The Hammer

Buy an HT/1003 MKII if you don't have the space or don't need the extra output of our larger models. It is simply a more compact but just as beautiful version of our larger models; it delivers identical build quality to its siblings. Its style makes it an ideal partner in HT/3D REL theatre setups with Serie T/x.

The all-new 300W Class D amplifier offers greater headroom and powers a new CarbonGlas™ 10" (250mm) driver. This combination delivers devastating output, playing twice as loud as the original. This type of performance is unheard of at this price point. The icing on the cake is that—like all the HTs—it responds beautifully when playing music and HT-Air MKII delivers state-of-the-art (optional) wireless.

Specifications

Type

Closed box, front-firing driver

Active Driver Size & Material

10 in., 250mm long-throw,
